FEATURES & BENEFITS OF HOSHIZAKI PRODUCTS

OptiServe TOUCHLESS ICE & WATER

- LED remote sensor for hands-free operation
- Eliminates possibilities of cross-contamination
- Reduction in service & maintenance expenses

H-GUARD PLUS

- Improves sanitation within the machines

fastcomm — Linking people places things —

Remote Monitoring System (IoT)

- Real-time monitoring and diagnosis
- Remote on/off, Reset, Lock
- Performance dashboard — reduce down-time, schedule cleaning
- Visit fastcomm.com/hoshizaki for product details

ADVANCED 2 CleanCycle™

Flakers & Cubelet Machines

- Performs a 2 second rinse every hour
- Reduces harmful mineral build up
- Automatic process saves on service & maintenance

TXV

Steelheart Uprights

- Thermostatic Expansion Valve responds to peak times or product overload
- Quickly responds to demand and regulates refrigerant flow
- Controls temperatures more effectively for energy efficient operation

LEARN MORE AT energystar.gov

ENERGY STAR®, a U.S. Environmental Protection Agency program, helps us all save money and protect our environment through energy-efficient products and practices. For more information, visit www.energystar.gov.

Look for the ENERGY STAR and Find Savings

Compared to conventional CFS equipment, ENERGY STAR certified equipment could save you the following over their lifetimes:

PRODUCT TYPE	LIFETIME SAVINGS	BENEFITS/TECHNOLOGIES	INCENTIVES
Ice makers	$900-$1,300	Quicker ice harvesting through harvest assist devices	$20-$2,400
Refrigerators and Freezers	$900-$1,000/$2,000-$4,300	Improved fan blade design and uniform cabinet temperatures	$25-$1,000

Also saves water
