

HOSHIZAKI

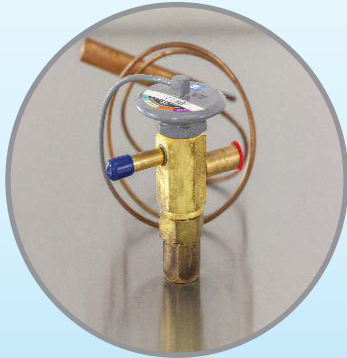

UPRIGHT REFRIGERATION with GLASS DOORS

COMMERCIAL SERIES

Top Mount Refrigeration

Keeps condenser cleaner - away from floors.
No heat rising into cold cabinet area.

TXV Expansion Valve

Regulates refrigeration flow for faster recovery
and efficient operation.

Dynamic Ducted Airflow Design

Optimum airflow at each shelf level ensures
cold temperatures and food safety.

Vertical LED Cabinet Lighting

Energy efficient vertical LED lights
provide 8x more light! Safety shielded.

All Stainless Cabinet Construction

Stainless steel interior and
exterior front and sides.

Superior Insulated Walls & Glass Door

Thicker than the competition.
CFC-free foam is environmentally friendly!

Roll-In Installation

Our units are shipped with pre-installed
stem casters for easy placement.
(two and three section units)

CR1S-FGE
