**MORE  
CHOICE**

Cold, Hot, Alkaline, and Sparkling Water

**LESS  
WASTE**

No plastic jugs, bottles or transport pollution

**SAVES  
MONEY**

No storage costs or delivery fees

**MORE  
EFFICIENT**

No operation labor costs, small footprint

SPARKLING

CHILLED

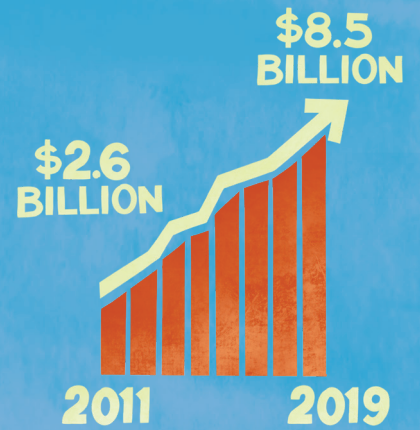

HOT

ALKALINE

MODwater offers sparkling, chilled, hot, and alkaline water - something for everyone.

Demand for sparkling water has grown nearly 400% in the last eight years.

# MORE CHOICE WITHOUT THE PLASTIC.

Ditch wasteful plastic jugs and bottles! Hoshizaki's MODwater provides premium hydration from a smaller footprint. With cold, hot, sparkling and even alkaline water, you can hydrate how you want and help save the planet.

Plastic waste washes into the ocean and kills over 1 MILLION marine creatures annually.

## SAVE THE PLANET

Billions of gallons of fuel are burned annually in the transport of delivered water.

# MODwater

## UNIQUE FEATURES

DWM-20A shown  
on C-80BAJ

- High capacity flow of 20 gallons of chilled or sparkling water per hour.
- Patent-pending in-line carbonator technology creates superior sparkling water instantly with a market-leading compact size.
- Attractive stainless steel body with a black polycarbonate LED touch-button panel.
- Designed to fit perfectly on top of Hoshizaki AM-50 or C-80 undercounter ice machines.
- Button height on standard counter complies with ADA standards.
- Filters, tubing, CO<sub>2</sub> regulator, and other parts come standard. *Must order CO<sub>2</sub> tank from local supplier.*
- Drain pan can either be connected to a drain or used as a drip pan.

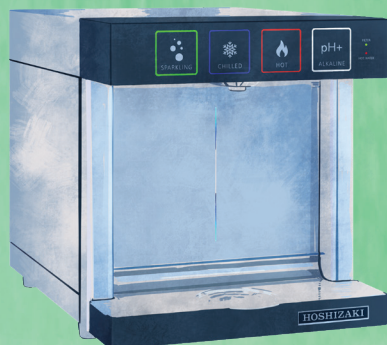

Only about 23% of plastic water bottles are recycled. That's bad for the environment as well as your bottom line.

5 gallon water jug storage uses valuable space and is unsightly.

## SAVE TIME AND MONEY

### MODwater offers:

- "Zero mile water": requires no transport
- No refilling
- An advanced filtration system to purify water and prevent scale

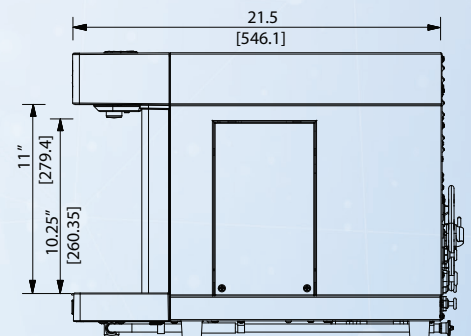

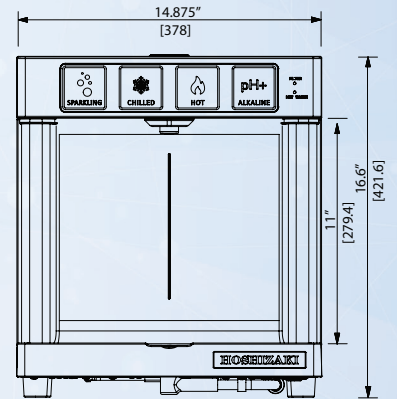

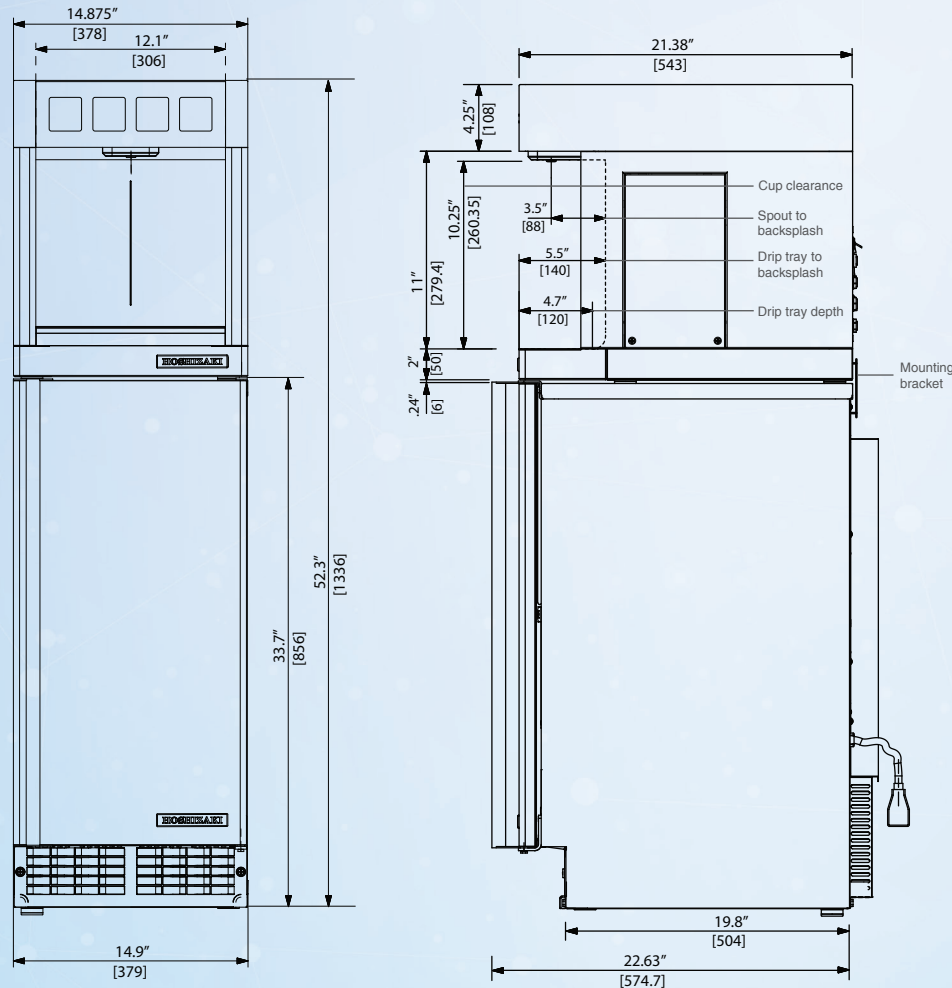

Bottled water is thousands of times more expensive than tap water.

Compare \$0.002 per gallon for most tap water to a range of \$0.89-\$8.26 per gallon for bottled waters.

**MODwater is designed to fit perfectly  
on the C-80\* (cubelet) or  
AM-50\* (gourmet) ice machine.**

*\* Cannot be placed on (-DS) models.*

**MODwater can  
also be placed  
on a counter.**

[bracketed dims are in mm]

## Standard Package Includes

- DWM-20A water dispenser
- CO<sub>2</sub> regulator
- Filter pack
- Leak detectors
- Water and CO<sub>2</sub> tubing
- Water pressure regulator
