HOSHIZAKI products can contribute to satisfying EAc1, MRc2, MRc4, WEc3, IDc1, Pc18 credits under **LEED®**

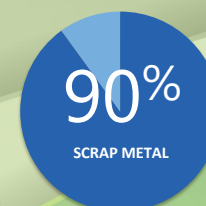

MISSION

As a world class, multi-billion dollar corporation we work responsibly to provide original products which are good for the environment with clear benefits for our customers.

CUSTOMER FOCUS

Continuous improvements to our products for energy and water consumption reductions result in lower operation cost for our customers.

RECYCLING

COMPLIANCE

- Hoshizaki attains the **ISO-14001** certification, which stipulates conservation and preservation practices.
- Compliant with relevant US regulations and standards including lead content verification and energy
- Compliant with Canadian **NRCan**.
- Our logistic partners participate in the **SmartWay Partnership Program** that reduces air pollution.

HOSHIZAKI Sustainability Plan

In order to be a sustainable and responsible corporation, Hoshizaki America focuses on three key areas:

Social Sustainability

Our commitment to social sustainability is evident through our company-wide employee support initiatives, community outreach programs, and charitable fundraising. Our proactive programs ensure our employees, and their families, are supported to maintain and improve their physical and mental well-being. Our community involvement and charitable fundraising demonstrate Hoshizaki America's commitment to our local and global community, aiming to make the places we live and work in benefit from our actions.

Environmental Sustainability

We are committed to developing original, energy-efficient products preferred by our customers while complying with laws and operating our facilities in an environmentally responsible manner as exemplified by our ISO 14001 certification. Within our facilities, 100% of all recyclable materials are recycled in addition to a conscientious economic use of raw goods and materials. Our multiple Energy Star® Partner of the Year Awards recognize our accomplishments. Within the community, Hoshizaki products can contribute to satisfying LEED Green Building certification, which offers environmental, social, and governance benefits.

Economic Sustainability

Hoshizaki prioritizes conservation by reducing energy consumption in our facilities, implementing effective waste management and recycling programs, and maintaining a well-managed supply chain. We adhere to industry-leading cost management protocols to ensure our profitability by designing and producing the highest quality and best value products on the market. Our ISO-9001 certification demonstrates our commitment to exceeding quality and regulatory requirements.

Sustainability Principle

We, the Hoshizaki Group, aim to realize a sustainable society and increase our corporate value through business activities, based on our management philosophy, "to be an 'evolving company' that can contribute to our customers and society." We will work to create a fair and inclusive environment in which all people can thrive and will contribute to the creation of value for our customers, our people and society at large. As a global company, we will respect human rights and strive to mitigate environmental impact throughout our operating businesses and supply chain and contribute to the environment and future generations. We will aim for transparency, compliance, trust, and collaboration, in our words and actions with all constituencies and stakeholders.

Quality/Environmental Policy

Hoshizaki America's top management is committed to an effective Quality and Environmental management system.

Hoshizaki America is committed to providing the most reliable and efficient commercial food service equipment for our customers.

Hoshizaki America is committed to customer satisfaction by providing quality products and design innovation.

Hoshizaki America is committed to the continual improvement of our quality and environmental management systems. (QMS and EMS). This includes the protection of the environment, prevention of pollution and our impact on climate change. As part of this commitment, HA shall establish and review objectives that are measurable and supportive of the organization's purpose.

Hoshizaki America is committed to satisfying applicable requirements, both internal and external.
