

HOSHIZAKI

REACH-IN REFRIGERATION

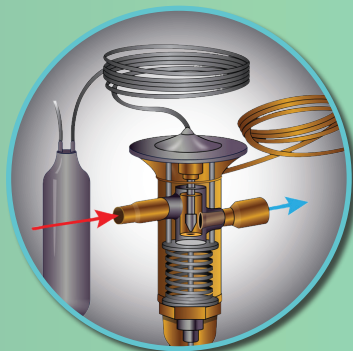

Top Mount Refrigeration

Evaporator and condensate pan on top for increase interior storage up to 10% and allows for extra storage on top of cabinet.

Dynamic Airflow Design

Optimum airflow at each shelf level ensures cold temperatures and food safety.

Thermal Expansion Valve (TXV)

Regulates refrigeration flow for faster recovery and efficient operation.

Easy Installation

With a height of 79.5" (with 4" casters) these uprights can roll through a standard doorway.

Ducted Panel Opening

Ducted panel with louvered openings directs the airflow evenly at each shelf and throughout the cabinet.

All Stainless Cabinet Construction

Stainless steel interior and exterior front, sides and top.

Item #50010 10/04/19
