E-10 and E-20 Prefilters can be used for post mix applications. Everpure pre-coat water filters are designed to increase the life of Everpure pre-coat water filters in areas with an unusual amount of dirt in the water. With a 10 micron (nominal) rating, the economical Everpure prefilter traps much of the dirt which contributes to scale buildup in ice makers, and clogs the delicate orifices of other water-using equipment.

When you install an Everpure prefilter, the pre-coat filters can concentrate on what they do best: remove particles 1/2 micron and larger in size.

Replacement Cartridges:

E-20 Prefilter: 6 pack (9534-26), 20 pack (9534-20)
E-10 Prefilter: 12 pack (9534-12), 40 pack (9534-40)

HOSHIZAKI H9320 FILTER
